

Next steps: during ASSET in 2025 and beyond harness and tailor the ASEAN guidelines process in Vietnam

Regional and global levels

LICA

ALiSEA – Asia DHRRA/ AFA

AE coalition & others

Continue collect, document & disseminate technical resources

(documenting experiences across the ASEAN, ASEAN guidelines website)

Work with ASEAN countries to develop adapted M&E systems building on existing tools (TAPE, etc.)

– Vietnam as a possible pilot (in collaboration with CIFOR-ICRAF - 2025 (Metrics program) – AE TPP forum hosted in Vietnam)

Vietnam level

Transform ASEAN guidelines into Vietnamese policy guidelines/ handbook on AET

Building on **National & provincial policy review** (IPSARD) to contextualize the guidelines framework for Vn: prioritization, targets, etc.

In line with national policy framework: building on National Action Plan for Food Systems Transformations (NAP FST) and Partnership and strengthening link to other sustainability framework related to agriculture and food (climate targets, one health, circular economy, soil, etc.)

Strengthen AET support from farm to landscape level in provinces

And learn from piloting

- Technical references / handbooks
- Capacity building programs
- Support and learn from NAP FST provincial piloting (Son La, Dong Thap, pos. Dien Bien)

Vn library of case studies & concrete approaches

- Share and synthesize learnings from different projects, programmes and networks

Build on Technical WG AE under NAP FST as a collaborative platform with multiple stakeholders

Adapt national & provincial policy M&E systems to assess AET (beyond ASSET time span)

- Into NAP FST policy monitoring
- Ensure multistakeholder engagement in planning and implementation
